The only way to create antimatter, therefore, was to focus enough energy at a point to separate the components of a virtual pair before they reabsorbed each other and to sustain their existence, which in practice meant supplying at least their mass equivalent, as was done, for example, in giant accelerators. This was the reason for the widespread skepticism that any net energy gain could ever be realized from annihilating the antimatter later. At best it was felt to be an elaborate storage battery, and not a very efficient one at that; the power poured into the accelerator would be better applied directly to whatever the antimatter was wanted for..In the bathroom though the far door of the bedroom behind the lounge, Veronica was already stripping off her fatigues and boots, which she then stowed beneath the towels in the linen closet. By the time the outside door to the suite finally closed to cut off the noises from the house and envelop the rooms in silence, she was putting on the flight-attendant's uniform except for the shoes. After that she used Celia's things to attend to her makeup..Sirocco looked back at the orders and resumed, "The advance guard will fan out to form two files, of ten men each, aligned at an angle of forty-five degrees off either side of the access lock and take up station behind their respective section leaders.
