At once the whole of the Communications Center fell silent, and the figures of Sterm and Stormbel, flanked by officers of their high command, appeared on one of the large mural displays high above the floor. Sterm was looking cool and composed, but there was a mocking, triumphant gleam in his eyes; Stormbel was standing with his feet astride and his arms folded across his chest, his head upright, and his face devoid of expression, while the other officers stared ahead woodenly. After a few seconds, Wellesley, Lechat, and Borfein moved to the center of the floor and stood looking up at the screen..to any significant degree..information than all five human senses combined, so he doesn't nudge her out of the way..Strangely, it was this very grasp that he was beginning to acquire of the Chironians' dedication to life that troubled Pernak. It troubled him because the more he discovered of their history and their ways, the more he came to understand how tenaciously and ferociously they would defend their freedom to express that dedication. They defended it individually, and he was unable to imagine that they would not defend it with just as much determination collectively. They had known for well over twenty years that the Mayflower ii was coming, and beneath their casual geniality they were anything but a passive, submissive race who would trust their future to chance and the better nature of others. They were realists, and Pernak was convinced that they would have prepared themselves to meet the worst that the situation might entail. Although nobody had ever mentioned weapons to him, from what he was beginning to see of Chironian sciences, their means of meeting the worst could well be very potent indeed.."When you notice those pina colodas are garnished with live, poisonous centipedes," Micky warned.."Guard, forward," Colonel Wesserman ordered from a row in front of Portney..A dog. Black and white. Shaggy.."For a few hours maybe.."No. It'd be your solution, not mine." "Then that's the answer." lay nodded, straightened his arms into his pockets with his shoulders bunched high near his ears, held the posture for a few seconds, and then relaxed abruptly with a."No offense intended.."Well, of course it does, sweetheart. Maybe Swley did have it all figured out after all..an uncharacteristic despair that even candlelight was sufficiently bright to reveal..In the D Company Orderly Room in the Omar Bradley barracks block, Hanlon secured his ammunition belt, put.Jay sat at an empty booth while Colman collected two coffees from the counter, then inserted' his Army pay-card into a slot. In a lot of ways lay reminded Colman of himself when he was a lot younger. Colman had acquired his name from a professional couple who adopted him when he was eleven to provide company for their own son, Don, who was two years older. They hadn't wanted to disrupt their careers by having another child of their own. Colman's stepfather was a thermodynamics engineer involved with heat exchangers in magnetohydrodynamics systems, which accounted for Colman's early interest in technology. Although the Colmans had done their best to treat both boys equally, Steve resented Don's basic schooling and was jealous when Don went to college to study engineering, even though he himself had then been too young W do the 'same. The rebelliousness that" had contributed W Steve's being placed in the home for wayward adolescents from which he had been adopted reappeared, resulting in his giving the couple some hard times, which upon reflection he felt bad about. For some reason that Steve didn't understand, he felt that if he could help Jay realize his potential and use the opportunities he had, it would make up for all that. Why, he didn't know, because nothing he did now could make any difference to the Colmans, who were probably old and gray somewhere, but he felt he owed it to them. People's minds worked like that. Minds could be very strange..on TV?that show, America's Funniest Home Videos"..Pernak twisted his face through a few contortions, then sighed again. "I know. That crossed my mind too, but what is there to provoke any real trouble? There may be one or two flareups before it's all over, but this state of affairs can't last." He shook his head. "We're convinced 'this

is the only way to go. We can't make other people's minds up for them, but they'll come round in their own time. Anything else would cause worse problems." "Why's it so important to be better than somebody?" "I made no mention of taking over anything. I'm merely saying we should be sufficiently familiar with their operations in be able to guarantee service if we are required to. Now that we've had an opportunity to look at Post Norday and a few other installations, I ant reasonably confident we could manage them. I didn't want to take up too much of everybody's time before, but since the distances..exhilarating journey.." "What's your pseudofather's real name?" Geneva asked..No meanness is evident in this tall, somewhat portly man, no suspicion or calculation in his twinkling blue.Chevrolet Camaro that whiffed and wheezed worse than a pneumatic horse, and a past that wound."You could be right, but that's long-term," Lechat replied. "I'm more worried about what might happen in the shorter term. I need help to do something about it." Before him, past this final line of trees, the meadow waits. Waits. Too bright under the fat moon..Bernard looked at him uncertainly. "I'm not with you, Jerry. Why should it escalate to anything like that? The Chironians don't have anything in that league anyway." Talking to Jay had brought to the surface a lot of things that Colman usually preferred not to think about. Life was like the Army: It took people and broke them into little pieces, and then put the pieces back together again the way it wanted. Except it did it with their minds. It took kids' minds while they were plastic and paralyzed them by telling them they were stupid, confused them with people who were supposed to know everything better than they did but wouldn't tell them anything, and terrified them with a God who loved everybody. Then it drilled them and trained them until the only things that made sense were those it told them to think. The system had turned Anita into a doll, and it was trying to turn Jay into a puppet just as it had turned Bernard into a puppet. It turned people into recording machines that words went into and came out of again . and made them think they knew everything about a planet full of people they'd never seen, just as it blew black guys' brains out because they wanted to run their farms and didn't want their kids nailed to walls, and then told the civilians in Cape Town it was okay. And what had it done to Colman? He didn't know because he didn't know how else it might have been..Old Yeller turns her attention from Curtis to the closet. She issues a low growl..Earlier, the congressman had admired Karla's "nasty mouth." Now he proved that he himself could not.what that is?".ON THIS, THE eve of the last Christmas that we shall be celebrating together before our journey ends, I have chosen as the subject of my seasonal message to you the passage which begins, 'Suffer little children to come unto me' The voice of the Mission's presiding bishop floated serenely down from the loudspeakers around the Texas Bowl to the congregation of ten thousand listening solemnly from the terraces. The green' rectangle of the arena below was filled by contingents from the crew and the military units standing resplendent and unmoving in full dress uniform at one end; schoolchildren in neat, orderly blocks of freshly laundered and pressed jackets of brown and blue in the center; and, facing them from the far end on the other side of the raised platform from Which the bishop was speaking, the ascending tiers of benches that held the VIPs in their dark suits, pastel coats, and bemedaled tunics. The voice continued. 'The words are appropriate, for we are indeed about to meet ones whom we must recognize and accept as children in spirit, if not in all cases in body and mind ..'.Fallows couldn't quite swallow the words that were being put in his mouth. He'd actually invited the fellow home several times to talk engineering. Colman had some fascinating ideas. He frowned and shook his head before he could stop himself. "Well, he seemed to have a surprising grasp of a broad base of fundamentals. He was with the Army Engineering Corps up until about a year ago, so he has a strong practical grounding. And he's studied extensively since we left Earth. I do--I did get the impression that perhaps he might be worth some consideration. But of course that's just an opinion." of a locomotive, the dog often visible in front of him, but sometimes seen less than sensed, sometimes.jeans. He smooths the bills and sorts them. Not much to sort. He counts his treasury. Not much to count..From his flight through the woods and fields, he is scratched, thorn-prickled, and spattered with mud...Old Yeller remains at the door, nose to the crack, but she's no longer sniffing noisily. She's in stealth."I'm not afraid of him." "Are you sure, Tony? Paula asked. "You wouldn't want to bet on that, now, would you?" Paula turned her head to smile slyly at her friend, Terry, also from the Mayflower L', who was watching from behind.."You'd have made a fine Minnie.."and country-and-western bars from Omaha to Santa Fe, to Abilene, to Houston, to Reno, to Denver..The group at the west gate surrendered shortly afterward and turned out to be just a handful and a lot of decoy devices. The transporter was picked up on radar heading low and fast away across the Medichironian, and two Terran interceptors on standby at Canaveral base were dispatched in pursuit. They overtook it just as it was crossing the far shore, and turned it around by firing two warning missiles, then escorted it to Canaveral, where its occupants were taken into custody by SD's..With a Grrrrrrrr, spoken and thought, Old Yeller draws Curtis's attention away from the chopper in the."Good thing we weren't playing Russian roulette," Leilani said. "My brains would be all over the kitchen." "Thank you. Are you sure your mother wouldn't like to join us?" -Jean shook her head and indicated Marie surreptitiously with her eyes. "It would be best if you went on your own. We've got plenty to do here." Marie made a face but stayed quiet.
