"Edran," said the Namer promptly, and laughed. "Drake. Dragon...". Ember usually scowled when he greeted her. She asked him abrupt questions, listened to his answers, and said nothing..away his clothes, but kept the shoes, she didn't know what for. For this fellow, it would seem..All the teachers of the art magic on Roke were women. There were no men of power, few men at all..His sudden tension and immobility, the strained face and inward look, were like those of a woman in labor when her womb contracts. That was Ogion's thought, even as he said, "What

did you mean, "in the Mountain?".your bed," she said. "There's no fire in that room. Did you meet weather, up on the mountain? They prove it, he made it seem that a herd of deer ran through the dining hall, followed by a flight of foolish and the wise, all must obey them, or waste life and come to grief." though it meant he would have his hands tied behind him and his mouth gagged and a leash buckled into death, and return - it was not right. They broke a law that must not be broken. It was to only to make love you brought me here, Ivory," she said, "we can do that. If you still want to." But ever the other will be the same..The Old Speech, or Language of the Making, with which Segoy created the islands of Earthsea at the beginning of time, is presumably an infinite language, as it names all things..they could, seeing him as the source of the worst evils they suffered, a malign being. In those will that hurried his steps..Wise governed for the child Serriadh until he took the throne. His reign was bright but brief. The "A fool could sit under the trees forever and grow no wiser." Erreth-Akbe, sailing into the bay "with sails worn transparent by the eastern winds," could not. The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back.. "That girl you liked, witch's Rose, she's tuning about with Labby, I hear. No doubt they'll come by." The boy shook his head at each question. He shut his eyes; his mouth was already shut. He stood there, intensely gathered, suffering: drew breath: looked straight into the wizard's eyes..glassy rock, a translucent massif above the plains of the night; spectral radiance issued from the..And the old man railed on about the folly of the young and the evils of modern times..Maybe she'll destroy herself through our hands, in the end. But not through yours. False king..now. From the very first moment I was invariably behind in everything that went on, and the..However the Division came about, from the beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles-and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this..traces of former elegance, but very old and very poor. Healers' paraphernalia and drying herbs."Hungry? Eat," he said..back to the seacoast, where Maharion's army awaited them. No ship of the fleet returned to Karego-."Nothing to do with us, that lot at the old place," Birch said, displeased. The tactful Ivory asked no more. But he wanted to see the girl as beautiful as a flowering tree. He rode past Old Iria regularly. He tried stopping in the village at the foot of the hill to ask questions, but there was nowhere to stop and nobody would answer questions. A wall-eyed witch took one look at him and scuttled into her hut. If he went up to the house he would have to face the pack of hellhounds and probably a drunk old man. But it was worth the chance, he thought; he was bored out of his wits with the dull life at Westpool, and was never slow to take a risk. He rode up the hill till the dogs were yelling around him in a frenzy, snapping at the mare's legs. She plunged and lashed out her hooves at them, and he kept her from bolting only by a staying-spell and all the strength in his arms. The dogs were leaping and snapping at his own legs now, and he was about to let the mare have her head when somebody came among the dogs shouting curses and beating them back with a strap. When he got the lathered, gasping mare to stand still, he saw the girl as beautiful as a flowering tree. She was very tall, very sweaty, with big hands and feet and mouth and nose and eyes, and a head of wild dusty hair. She was yelling, "Down! Back to the house, you carrion, you vile sons of bitches!" to the whining, cowering dogs..He strode from the house, turned, and set a fire spell on it so that it burst into flames, thatch and walls and every window spouting fire. Women ran out of it screaming. They had been hiding no doubt in the back room; he paid them no attention. "Hound," he thought. He spoke the summoning, using Hound's true name, and the old man came to him as he was bound to do. He was sullen, though, and said, "I was in the tavern, down the way there, you could have said my use-name and I'd have come."..been his secret..light?" But he could not. He crawled in the dark till the sound of water was loud and the rocks."Yes," Irioth said. "I understand. You are a kind woman." She was talking about him, about his not knowing what he was doing. She was forgiving him. "A kind sister," he said. The words were so new to him, words he had never said or thought before, that he thought he had spoken them in the True Speech, which he must not speak. But she only shrugged, with a frowning smile..reason to frighten them. They were not men..I paced the room. She followed me with her eyes, as if I were. . . as if she stood in a cage."I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind."..sir, but I have to ask, can you pay a little?"..the night. Once for a moment something drew his mind away, some invasion of the outskirts of his.."Tell me what you'll be doing-." "This is what you brought the Nine together for? This and no more?".Where the two paths met and joined to wind up to the heights of the Knoll, Thorion stopped and..Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..We entered a small bright room. Instead of a ceiling it had long rows of tiny flames, like..smiled at Otter. "Don't you?"..and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High..The deeds and lays that tell of raids by dragons and counterforays by wizards portray the dragons as pitiless as any wild animal, terrifying, unpredictable, yet intelligent, sometimes

wiser than the wizards. Though they speak the True Speech, they are endlessly devious. Some of them clearly enjoy battles of wits with wizards, "splitting arguments with a forked tongue." Like human beings, all but the greatest of them conceal their true names. In the lay Hasa's Voyage, the dragons appear as formidable but feeling beings, whose anger at the invading human fleet is justified by their love of their own desolate domain. They address the hero: Master Chanter on Roke, that teaches the lays and the histories. But I never heard of a wizard.know something about the power, see," she said at last, and looked at Dragonfly with one eye. Her."The money and the music."In the young dowser he recognized a power, untaught and inept, which he could use. He needed much more quicksilver than he had, therefore he needed a finder. Finding was a base skill. Gelluk had never practiced it, but he could see that the young fellow had the gift. He would do well to learn the boy's true name so that he could be sure of controlling him. He sighed at the thought of the time he must waste teaching the boy what he was good for. And after that the ore must still be dug out of the earth and the metal refined. As always, Gelluk's mind leapt across obstacles and delays to the wonderful mysteries at the end of them..Witchery was restricted to women. All magic practiced by women was called "base craft," even when it included practices otherwise called "high arts," such as healing, chanting, changing, etc. Witches were to learn only from one another or from sorcerers. They were forbidden to enter Roke School, and Halkel discouraged wizards from teaching women anything at all. He specifically forbade the teaching of any word of the True Speech to women, and though this proscription was widely ignored, it led in the long run to a profound, long-lasting loss of knowledge and power among the women who practiced magic.."If you ask me to, I'll talk," the young man said, so earnest, so willing to deny his whole nature.This was a contest, then, a foe worth fighting! Early took a step backward and then, smiling,.the fishermen can't pay us.".It is said that Segoy first wrote the True Runes in fire on the wind, so that they are coeval with the Language of the Making. But this may not be so, since the dragons do not use them, and if they recognise them, do not admit it..like summoning the dead," and Rose made the hand-sign to avert the danger spoken of.."Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master Sunbright, come up to deal with the murrain. He's cured beasts for me before, the hoof rot and all. Being as how you have all one man can do with Alder's beeves, you see..."So he cherished his free hours as if they were actual meetings with her. He had always loved her,..nothing, though my eyes were open. I wanted one thing only, to get away, to find a way out of."Patterner," said the Doorkeeper, not at all surprised..and Diamond said nothing. "Have you had any ideas of what you want to do?".around one another, in groups of six, eight, blocking the way across the entire thoroughfare, came."Oh, yes," he said, confused, and got up and limped back to the bedroom for his pouch. He brought her a piece of money, a little Enladian crownpiece of gold..each other directly, as there was no room for their knees. At O Port she had bought herself a.his arm and hip and head. Then the darkness came around him, and then nothing..but not the way a sorcerer-prospecter does; not just slipping about between things and looking and.Hemlock dismissed that with a flick of his hand. "I am talking of the True Art," he said. "Now I will be frank with you. I advise you to write your parents -- I shall write them too -- informing them of your decision to go to the School on Roke, if that is what you decide; or to the Great Port, if the Mage Restive will take you on, as I think he will, with my recommendation. But I advise against visiting home. The entanglement of family, friends, and so on is precisely what you need to be free of. Now, and henceforth..".go tell him that, if you like!" And so on. Old Daisy went back to her kitchen and old Coney went."My mother was born in Endlane, round by Faliern Forest," Otter said. "Do you know that town?"
