"What aren't you telling us?" her mother pressed, intuiting the existence of a larger story, if not the amazing nature of it. "Well, actually, I owe Phimie. It's what she said between her two deaths on the delivery table that's changed my life." Junior wasn't interested in Vietnam anymore, and he wasn't in the least troubled by the other news. These two years were disturbing to him only because of Thomas Vanadium..In spite of the urgency of his desire, he followed a circuitous route to Victorial's, doubling back on himself twice, watching for surveillance as he drove. If he were being followed, his tail was an invisible man in a ghost car..An hour later, when Barty decided he wanted a soda, he switched off the book and asked Angel if she would like something to drink..Agnes got out of bed, switched on the lamp, and

tucked Barty in once more. "Say your silent prayers." "There must be something important I'm supposed to do here that I don't need to do everywhere I am, something I'll do better if I'm blind." "The doctors," he continued, "needed to repair damage to the left frontal sinus, the sphenoidal sinus, and the sinus cavernous, which had all been partially crushed by that pewter candlestick. Frontal, malar, ethmoid, maxillary, sphenoid, and palatine bones had to be rebuilt to properly contain my right eye, because it sort of ... well, it dangled. That was just for starters, and there was considerable essential dental work, as well. I elected not to have any cosmetic surgery." The calls to Bellini in San Francisco and to others in Oregon were made with a prayer for news, but the prayer went unanswered. Cain had not been seen, heard from, smelled, intuited, or located by the pestering clairvoyants who had attached themselves to the sensational case. He closed his eyes again and seemed asleep, but then as she clicked off the lamp, he murmured, "You have your halo again." Celestina turned in her seat to look back at Wally and Angel, who were waving. "I guess I am." The symptoms that terrified Phimie—the headache, crippling abdominal pain, dizziness, vision problems—had entirely relented. Possibly they had been more psychological than physical in nature. "Sometimes she wrote little paragraphs to God, very touching and humble notes of gratitude, thanking Him for bringing you into her life." She couldn't explain her anxiety to him, because he believed in the supremacy of laws, in the justice that might be delivered in this life, in a comparatively simple reality, and he would not comprehend the gloriously, frighteningly, reassuringly, strangely, and deeply complex reality Agnes occasionally perceived—usually peripherally, sometimes intellectually, but often with her heart. This was a world in which effect could come before cause, in which what seemed to be coincidence was, in fact, merely the visible part of a far larger pattern that couldn't be seen whole. Traditional logic argued that an infant, no more than two weeks old, could not be a serious threat to a grown man. The currents of irrational fear, which bring periodic turbulence to virtually every childhood, didn't disturb the smoothly flowing river of Barty's first three years. He showed no fear of the doctor or the dentist. Agnes was so weary, her eyes so sore and grainy, that even this soft radiance stung. She almost closed her eyes and gave herself to sleep again, that little brother of Death, which was now her only solace. What she saw in the lamplight, however, compelled her attention. In southern California, Agnes Lampion dreams of her newborn son. In Oregon, Junior Cain fearfully speaks a name in his sleep, and Detective Vanadium, waiting to tell the suspect about his dead wife's diary, leans forward in his chair to listen, while ceaselessly—turning a quarter across the thick knuckles of his right hand. As the afternoon waned toward a portentous dusk and toward the gallery reception for Celestina White, Junior prepared his knives and guns. After carrying the two pieces of luggage to the car in the garage, he returned to the study. He sat at the desk and examined the contents of the drawers, then turned to the file cabinet. The bandaged man stormed up from the ruin of the living room, gauze fluttering around his lips as his hard exhalations seemed to prove that he wasn't a long-dead pharaoh reanimated to punish some heedless archaeologist who had ignored all warnings and violated his tomb. So this wasn't a *Weird Tales* moment. Maybe the bright side was that the musician hadn't either wet his pants or taken a dump while in his death throes. Sometimes, during a comparatively slow death like strangulation, the victim lost control of all bodily functions. He'd read it in a novel, something from the Book-of-the-Month Club and therefore both life-enriching and reliable. Probably not Eudora Welty. Maybe Norman Mailer. Anyway, the men's room didn't smell as fresh as a flower shop, but it didn't reek, either. On Joey's side, there was no family to provide help. His mother had died of leukemia when he was four. His dad, fond of beer and brawling—like father not like son—was killed in a bar fight five years later. Without close relatives willing to take him in, Joey went to an orphanage. At nine he wasn't prime adoption material—babies were what was wanted—and he'd been raised in the institution. The white padded eye patches rebuffed her, and she realized how profoundly the boy's double enucleation would affect how easily she could read his moods and know his mind. Here was a littler loss until now shadowed by the greater destruction. Denied the evidence of his eyes, she would need to be better at noting and interpreting nuances of his body language—also changed by blindness—and his voice, for there would be no soul revealed by hand-painted, plastic implants. "Mom always says that pigs will surely fly one day if ever Daddy chooses to convince them that they've got wings." Bartholomew didn't merely have something to do with babies. Bartholomew was a baby. Similarities between Naomi and her mom—ended with appearances. Sheena was loud, crass, self-absorbed, and had the vocabulary of a brothel owner specializing in service to sailors with Tourette's syndrome. The maniac kicked once more, but because of the bracing dresser, the door wouldn't budge, so he kicked harder, again without success. He knew the sermon, of course. The example of Bartholomew. The theme of chain-reaction in human lives. The observation that a small kindness can inspire greater and ever-greater kindnesses of which we never learn, in lives distant both in time and space. Twice during dinner, he seemed to draw near The Subject, but then he circled around it and flew off, each time to report some news of little relevance or to recount something funny that Angel had said.
